

# EVACUATION BODY SPLINT

Lightweight, versatile and easy to store, carry and use, Saferight's evacuation body splint/stretcher is used around the world for horizontal, vertical, confined space, rope and helicopter rescue.

Weighing 6kg, it comes in it's own carry bag with shoulder straps, and is manufactured from heavy duty PVC with neutral bouyancy. The body stretcher does not contain any metal parts, enabling the casualty to remain in the splint for any X-Ray, CAT scan or MRI procedure and works with any other stretcher.

## KEY FEATURES
