

# SELF LOWERING REELS (TYPE IV)

Self lowering reels are ideal for any working at heights application that may require self evacuation or descent.

The device functions in the same way as an inertia reel, however, once a fall has been arrested, the device immediately lowers the user to the ground at a constant speed of 0.9m/sec.

Saferight markets and distributes the IKAR range of inertia reels in Australasia. The reels are renowned worldwide for their robust design and engineering excellence.

## KEY FEATURES

- Lengths available - 18m (12kg) and 30m (15kg)
- Galvanised cable
- Metal casing
- Locks off immediately in the event of a fall, reducing the forces generated on the body as free fall is reduced, then lowers the user at 0.9m/sec to safety

**Code**    **IRSL**

## MATERIALS & CONSTRUCTION

- Galvanised cable
- Aluminium casing
- Triple Action Carbon Steel karabiner (K1)

## TRAINING & INSPECTION

- In accordance with AS/NZS 1891.4, all users of height safety equipment must have been trained in its safe use.
- Saferight offers a range of Nationally Recognised Height Safety, Confined Spaces and Rescue Courses.
- Items should always be visually inspected before and after each use, and undergo inspection by a competent person every 12 months in accordance with AS/NZS 1891.4
- Saferight offers a full inspection service for all Height Safety, Confined Spaces and Rescue equipment.

## APPLICATIONS

- Working at Heights
- Self rescue situations

## TESTING & QUALITY CONTROL

- CE marked and certified to EN360
- Conforms to AS/NZS 1891.3
- Saferight is an ISO 9001 Certified Company

**SAFE WORKING LOAD (SWL)** Maximum combined weight including tools shall be no more than 136kg
