

SNATCH & GRAB KIT

The Snatch & Grab kit is the perfect height rescue solution. Packed and maintained as a fully operational, compact, low weight, easily transportable, ready to use rescue option.

The kit comprises a controlled rate descent device (IKAR - 0.9m per second) with an integral rescue lifting capability (by engaging a crank handle) and a rescue pole (extendable to 3.3m) to attach the IKAR to the casualty. If an anchor point is not in an ideal location, the Snatch & Grab can be run over edges or obstructions.

KEY FEATURES
